Hello. Well it was a pretty good event. There we were, the August heat, Fentress airfield, good people everywhere. I dare say it was a resounding success. About 55 entrants made it a perfect size autocross. Thanks to all who helped, including Dave Cutchins for his world famous timing van, Dave Hinde for his registration help, Lee Ann for working in the van and providing air truck. Tom Stangler always contributes a great deal in scoring, and suggested a great car on Saturday. If a way to grid, stage, enter and exit the cars smoothly, I would like to do one again. I believe TSCC puts on a real professional show. Thanks also to Mike Shimandle, Wright and Lisa Kenas for helping. It is a real team effort, and it showed. We even made so much money to help buy our prospective TSCC deluxe timing, storage, transportation, and image print vehicle. I dare say, we do appear professional, and we are good.
